## OBJECTIVE

As a motivated and passionate developer, I have gained valuable experience over the past 6 months building responsive web applications as a Frontend Developer. However, my true passion lies in the realm of backend development with .NET. With my quick learning abilities and problem-solving skills, I am confident in my ability to excel in this field. I thrive in team environments and am eager to collaborate with other developers to create robust and efficient systems. My short-term goal is to become an exceptional backend developer with expertise in .NET. Looking towards the future, I aspire to become a full-stack developer.

## WORK EXPERIENCE

### Sucodev Viet Nam

12/2022 - Present

### PARTTIME FRONTEND DEVELOPER

- Responsible for working on multiple projects at the same time, designing attractive websites, and interacting daily with fellow graphic designers, back-end developers, and marketing teams.
- Worked on the development of the company's website using Vue.js, Nuxt.Js, HTML, and CSS.
- Implemented responsive design and cross-browser compatibility to ensure optimal user experience.
- Utilized Git for version control, Slack, and Trello for teamwork.
- Participated in daily stand-up meetings to discuss project progress and roadblocks.
- Worked on bug fixes and feature enhancements.
- Develop and maintain front-end functionality of websites.

## PROJECTS

### FIXED ASSETS MANAGEMENT FOR DA NANG UNIVERSITY OF TECHNOLOGY

1/2023 - Present

### FULLSTACK DEVELOPER

The Fixed Assets Management System is a web-based application designed to help Da Nang University of Technology manage its assets more efficiently. The system provides an easy-to-use interface for managing assets, tracking asset movements, and generating reports. The application was designed with three main user roles: admin, staff, and accountant, each with its own set of privileges.
